

STATION WAGON, "CONFORT" FRENCH MODEL

CITROËN STATION WAGON

THE CITROEN STATION WAGON is designed to incorporate all of the world famous reliability and roadability of the renowned Citroen DS and ID-19 sedans. A long wheelbase of 123" with a total overall length of only 196" gives full 8 passenger comfort with compact car maneuverability.

With Citroen's exclusive Air-Oil Suspension, the car automatically maintains a constant ground clearance (6 1/2") regardless of number of passengers or amount of luggage. This eliminates "tail wagging" common to conventional station wagons when loaded. Variable ground clearance enables you to actually increase the ground clearance for rutted country roads, snow drifts, mud, or other hazards.

Thanks to Front Wheel Drive the drive shaft and transmission humps are eliminated. This provides an entirely flat floor so that the interior can be utilized fully - there being no less than 7 *full feet* of flat floor length from the back of the front seat to the closed tailgate.

The elegant finish of the Station Wagon is further enhanced by the sparkle of stainless steel trim, and the handsome, rugged, long wearing vinyl interiors further attest to the skill of the coachbuilder's art.

STATION WAGON

ID 19

The Citroen Station Wagon is offered in two models. The Citroen Station Wagon "Deluxe" is an 8 passenger 4 door model with fully washable vinyl interior. All seats, with the exception of the bench-type front seat can be folded for full carrying capacity.

The Citroen Station Wagon "Confort" has foam-rubber upholstery with a wide choice of genuine nylon interiors. The front seats are bucket reclining bed-type seats. The center bench seat is fixed, and incorporates a wide folding center armrest. All doors are finished to match the seats, and have armrests. The carpeting is luxurious with foam-rubber underlay. On the "Confort" model *only* the two facing jump-seats fold.

An aluminum luggage rack is standard equipment on both models, as are Power Disc Brakes, heater and defroster, clock, Michelin "X" tires, windshield washers, and stainless steel wheel covers.

BUSINESS

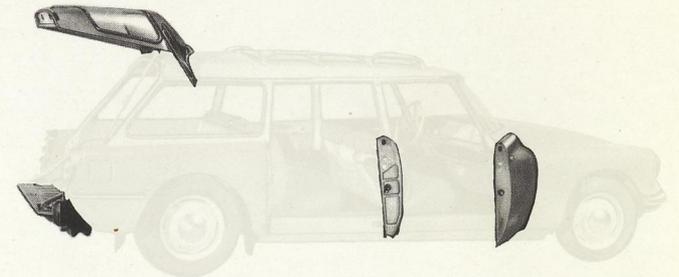

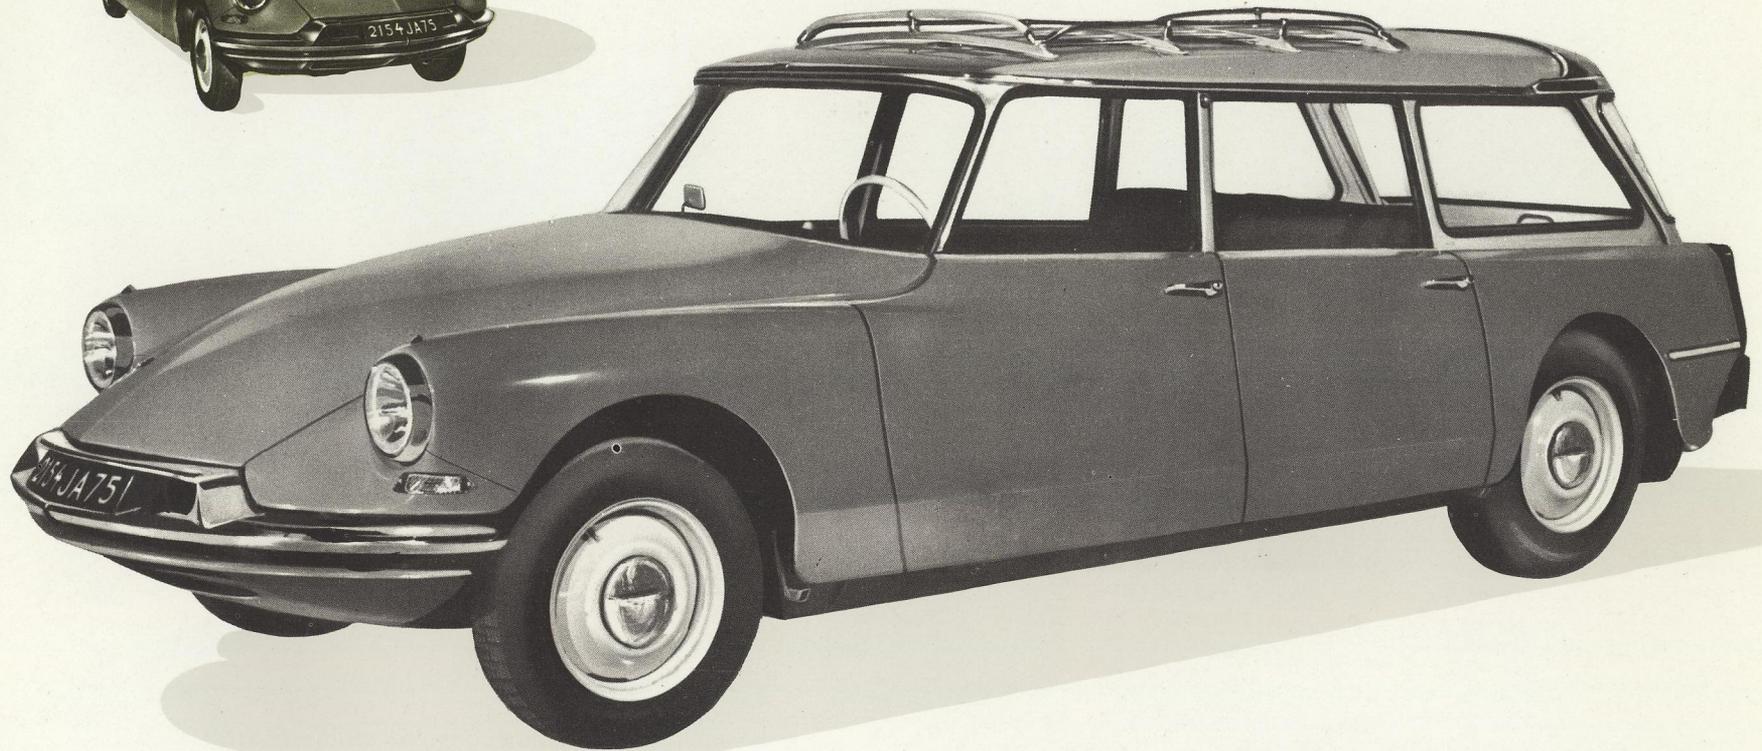

PLEASURE

6 passengers and their luggage

8 passengers and their luggage

FRONT SUSPENSION. Independent wheels • Two suspension arms for each wheel • One Air-Oil unit with shock absorber for each wheel • Anti-roll bar • Levelling device.

REAR SUSPENSION. Independent wheels, one suspension arm and one Air-Oil unit with shock absorber for each wheel • Anti-roll bar • Levelling device.
